

## SIZE

1 kg bag.

## DESCRIPTION

Blend of roasted Arabica and Robusta coffee beans.

## ROASTING

Pre-blended product roasted through semi-automatic cycles in order to obtain the ideal mixture of organoleptic characteristics from the single components and consistent end product quality. A slightly lighter roasting compared to the other blends of the Bar Line enhances the peculiar characteristics of the refined coffees used in this blend.

### AVERAGE NUTRITIONAL VALUES

1 cup of coffee (25 ml) made using 7 grams of freshly ground coffee

ENERGY	6 Kcal - 25.4 KJ
PROTEIN	0.6 g
CARBOHYDRATE	0.8 g
FAT	0.1 g
MAXIMUM CAFFEINE CONTENT	0.15 g

### CHEMICAL-PHYSICAL PROPERTIES

HUMIDITY	< 3%
OCHRATOXIN (RAW BEANS)	0.30 ppb (average annual value)
OCHRATOXIN (ROASTED BEANS)	0 ppb (average annual value, legal limit: < 5 ppb roasted)
ALLERGENS	absent
HEAVY METALS	absent
GENETICALLY MODIFIED ORGANISMS	absent
PESTICIDES	absent
